CITY AND COUNTY OFFICIAL PAPER.  
WEDNESDAY, APRIL 21, 1875

### California.

One of the finest improvements in the city will be the re-building of the Lafayette Hotel. The whole of the back of the house is already being torn down, and the front will shortly be built up. The stores will be just half as large as they are now, and as the important has a very large stock on hand, they will not have him enough for their goods and in order to prevent them from being damaged by dirt and dust, they have decided to sell all their Spring goods at less than cost, and other such as cottons, table-linen, etc., at exact cost. We advise all to call at the Important and convince themselves of the great bargains. Such bargains they can never get again, and in order to prevent a great rush, we advise all to call early and take advantage of the building of the Lafayette Hotel. 16

To Let three unfurnished rooms. Water and sink in the kitchen. Ten minutes walk from the P. O. on line of horse railroad. Address C-Box 144 P. O.

The auction sales of the Santa Gertrudes lands fixed for the 19th, 20th and 21st of the month have been unavoidably postponed in consequence of the illness of the surveyor and the managing agent Mr. Edward McLain. The postponement contemplates the sale of the property on the 26th, 27th and 28th of May. \*april 16:1d

Opera glasses to be found at Hellman's of all kinds; marine, theatre, campaign and field glasses; spy glasses, microscopes, thermometers, barometers, spectacles, eye-glasses, compasses.

Wanted to loan from \$3,000 to \$4,000 for one or two years secured by mortgage on improved property near Los Angeles. \*april 16:1w

### Card to the Ladies of Los Angeles.

D. Miller begs leave to inform the ladies of Los Angeles that he will be at the Backman House for a short time with samples of dry goods, comprising black and colored silks, grena-dines, fancy dress goods in all the new styles, white goods in endless variety, shawls in plaids, new stripes, broche, Shetland wool lace, and in fact everything that is new and elegant in the line, from the well known dry goods establishment of S. Mosgrove & Co., 114 and 116 Kearny street, San Francisco. An endless variety of ladies' silk scarfs of the newest style on hand. adit\*

Aged persons and ladies with children will avoid climbing stairs to Judkins' Gallery by entrance on High street, opposite Congregational church. \*mr18d&w ff

### A Plea for Woman.

EDITOR HERALD: I had thought that some sister would have replied ere this to your little article upon female editors. It ought to be answered, and rather than let it go by default I am tempted to try myself. But my pen is not at all equal to the task; I can't begin to do justice to the subject. You ought to have an Anna Dickinson, or Grace Greenwood, or Gall Hamilton told of you for a few moments, Mr. Editor. I am inclined to think that when you came from their hands you would have received a revelation; in short, would be converted man.

Now it seems to me that if there is any one field more than another that is open to woman and invites her to enter and reap, it is that of journalism. Such women, of course, as have the taste and capacity for something higher than dish-washing and shirt-buttons. Surely there are occupations enough that are practically closed against woman. Whether from lack of physical strength, impropriety of association, or what not, she is destined to gain a livelihood in many ways that are open to man. And it is a well known and shameful fact that most employments in which she is graciously allowed to compete with her stronger brother and "natural protector," she is paid from twenty to fifty per cent less than he for precisely the same service. This is true from the hired girl and sewing woman to the teacher and government clerk. In the offices at Washington the most efficient female employee receives \$900 per annum, while the largest, most good-for-nothing man that carries messages gets \$1,200. But examples are unnecessary—everybody knows it, if there any reason—mental, moral or physical—why a woman should not edit a newspaper and do it well? Surely she has all the essential qualifications in this triple direction. Are brain needed? She has them, and oftentimes to spare to her weak brethren. Is business tact called for in a high degree? Only a little training is requisite to make her the shrewdest of managers. Is combative ness in demand? She has the bumb handomely developed. Is personal service necessary? She has it all to pieces for sticking to her point. Is flattery desirable? Gibraltar is not more\*\* set in its ways\*\* than a woman whose mind is made up. Let me quote: "When a woman will, she will!" etc.

Then "the question is entirely different." Nothing is more apparent. The *Atta* is taking time by the forelock, and preparing the American people for what may come to pass. This little paragraph is only a feeler, but it is very significant. "Look at the monarchies of the old world. See how wealthy they are, and behold how the poor subjects lavish millions upon them and their children, and the public opinion of the world does not find fault with it." The American people are not quite ready yet to have the extravagance and arbitrary dictation of the crowned heads of Europe held up to them as an example to be followed by the President of the United States. We do not know how soon we may be forced to lift the hat—  
—and the knee when royalty is mentioned in our news—  
—at present over one-half the American people have no better sense than to use cuss words when they read such language as they find in the *Atta*. But if the *Atta* and her co-laborers will continue to give us lessons, we may become indoctrinated in time. It is wonderful how fast a people will change. Who knows how soon the American people may follow the example of ancient Israel. They once had their President and a Governor for each State, or tribe, and all their subordinate officers, very much like the machinery of our own government, and for a great while they were very prosperous and happy. They made money and became rich and took pleasure trips, and in their tours they became acquainted with the kingdoms around them. The royal splendor of those gorgeous old thrones, the shining retinue surrounding the King, the brilliant display of the nobility, the grand elegance of the King's palace, and above all this there was royal blood. It took their eye; they were captivated. It was too much for these Republicans; they became restless; they would draw the comparison between their insignificant President and the royal King of the Hittites: "Why, the great King of the Hittites does not do anything, yet when he calls upon his subjects for millions as a gift for his children, they give it without a word. The King is wealthy and puts all his relatives in high places, and the people all say amen!" Then they would look upon their poor old President, only worth a few hundred thousand shekels of gold; and his relations—they are no better than other people; and our President has so little power, too; if he attempts to make one of his relatives a Governor over the tribe of DAN, all the other tribes make a fuss about it. A general feeling of dissatisfaction obtained throughout the nation, and they talked it openly. At first the rich only wanted a King; the poor objected. Eventually they brought the question to a vote, and the Royalists won the election by a two-thirds majority or more. We only have SAMUEL's account of it, and he was in the minority and so badly beaten that he did not have much to say on the subject. He summed it up in a few words said: "All the people cried out and said, 'Give us a king!'" — SAMUEL was a staunch old Bourbon Democrat. Even after the election was over and the votes all counted, he made a telling speech against it, but all to no effect. They got their King, and the snobs and shoddyites sprung. We know not whether the *Atta* editor has been on tour to Europe or not; he has certainly squinted at royalty in some quarter. Perhaps King KALAKAUA's visit has turned his head.

The San Bernardino *Guardian* says: "Chavez and his gang are now operating on the road between Panamint and Cerro Gordo. His movements are mighty 'onsartin.' We advise stemmers on the Panamint road to keep a bright lookout for him; and would suggest that there is no need of their taxing their hoarded cash along with them for safety.

### From the East.

NEW YORK, April 17th.—The railroad war shows no signs of abating, and railroad men predict a bad summer for the roads. Few, if any, are making their running expenses and the prospects are that third-class freight will be carried this Summer at the lowest rates ever known—fifteen cents by rail and lake and from twenty to twenty-five cents by rail to Chicago.

NEW YORK, April 17th.—The earnings of the Union Pacific Railroad for the first fifteen days of April were \$55,652; an increase of about sixty per cent over the same period of last year.

### Election.

PROVIDENCE, April 17th.—The second trial in the city to-day to elect a Senator and nine Representatives in General Assembly resulted in a choice of the regular Republican ticket, supported by the liquor interest, by 350 majority. This probably secures the election of Henry Lippitt, Governor, and the repeal of the Prohibitionary and State Constabulary laws. Several arrests were made for bribery and illegal voting.

### Cardinals Hot.

NEW YORK, April 17th.—Great preparations are making for conferring the scarlet *barette* on Cardinal McCloskey. The sanctuary of the Cathedral is being enlarged to accommodate a large number of archbishops and bishops who are expected to be present.

### Indian War.

CHICAGO, April 17th.—Kansas City advises state that 800 Cheyenne warriors crossed the track of the Atchison, Topeka and Santa Fe Railroad on Thursday night, fifteen miles East of Akin. They were going North, passing through the State of Kansas, and a company of troops was sent from Fort Dodge in pursuit. The trail was followed about twenty miles, when it became evident that the Indians had separated and scattered over the prairies. They are undoubtedly on the war path, and bloody work may be expected.

### Frost and Snow.

CHICAGO, April 17th.—The extraordinary cold snap continues here and reports from all portions of the West and Southeast show it to be general. The fruit crop has doubtless suffered very seriously, and in many localities it is reported entirely killed. The thermometer here last night marked zero, and to-day snow has been flying all day.

TORONTO, April 16th.—Kingston and Port Colborne harbors are again blocked with ice. Five inches of snow have fallen at Seaford since last night and it is still snowing and freezing. Navigation on the Georgian bay is now open.

### The Louisiana Legislature.

CHICAGO, April 17th.—A New Orleans dispatch says the majority for Estelle, the Speaker of the re-organized House of Representatives was voted in, and that the election had anticipated. After his defeat, Wiltz made a violent and intemperate speech, attacking General Sheridan, Governor Kellogg, and Marshal Packard, attributing his defeat to their machinations.

### From the South.

MEMPHIS, April 17th.—A heavy frost last night killed the vegetables and seriously damaged, if not killed, the fruit.

NASHVILLE, April 17th.—A heavy West and Northwest wind has prevailed here for the last thirty-five hours, extending as far South as Montgomery, Alabama. This morning the ice was an eighth of an inch thick at Corinth, Miss. All exposed vegetation was frozen here this morning. It is believed that all the fruit, cotton and wheat in this and adjoining States are seriously injured, if not killed.

### Prussia's Note to Belgium.

OGDEN, April 17th.—Six coaches of emigrants were transferred yesterday between Rock Springs and Bear river, and are coming Westward as fast as the breaks allow. Up to this time they have passed over as much of the road in twenty-four hours as would be taken in only four hours if it had been in good condition. A train of first-class passengers and a large number of emigrants reached Green river-to-day from Rock Springs in wagons, which returned with as many east-bound passengers as chose to go. A train will be started East from Rock Springs in the morning. A force of laborers arrived at Rock Springs from the East to-day. A company is working energetically at the breaks, and is feeding and doing everything for the comfort of the passengers that is possible under the circumstances.

SALT LAKE, April 17th.—A lot of emigrant passengers walked about eight miles and got into Green River Station last evening. The railroad company will start a train West from Green river with these emigrants this morning. The water in Bear creek is still rising and is considerably higher to-day than yesterday. There are three bridges gone and large portions of track washed out in different places. From all we can hear to-day it would not appear probable that any train can pass over the road for a week yet, and even then will depend upon the weather. The weather continues warm and the snow melts, the difficulty at this place will be increased, besides endangering the road at many other points. The wires are down East of Green river this morning. On account of the flood and the want of means of conveyance, it is difficult to get at the breaks, which are at the "wash-outs."

### Trouble at Headquarters.

LONDON, April 17th.—In the House of Commons last night, there was an acrimonious debate on the question of summoning to the bar the printers of the *Times* and *News* for a breach of privilege, for publishing documents in the hands of Select Committee on Foreign Loans. Disraeli moved a resolution that a Select Committee be instructed to investigate the affair and report how the Press obtained the documents. This resolution was carried, and the order summoning the printers revoked.

### Salt Lake News.

SALT LAKE CITY, April 17th.—The Mormon papers are virulent against correspondents in this city, for sending what they call untruthful and sensational reports over the wires. The object is well understood here. The removal of Governor Woods and other officials is accepted as a great triumph by the church orators and editors, and this point gained they now seek to obtain control of the wires.

Chief Justice Lowe to-day ordered that Brigham Young appear in the Third District Court on Saturday next to show cause why he should not be compelled, by attachment, to comply with an order of the Court to pay Anna Eliza Young \$9,500 alimony, *pendente lite*, heretofoe granted by Justice McLean.

A terrible snow-slide occurred at the Reed & Benson mine, Big Cottonwood, yesterday, burying three men and seriously injuring two.

E. A. Rodgers, Sonora, Grand Sword Bearer; E. Sir Charles F. Lott, Oroville, Grand Warden; E. Sir James Oglesby, San Francisco, Grand Captain of the Guards.

WEDNESDAY, APRIL 21, 1875.

**Notice of Intention.**

NOTICE is hereby given that the city of Los Angeles intends making the following improvements on Fort street from its intersection with Third street to and including its intersection with Second street:

The road-bed shall be prepared by  
cutting or filling up the street to a grade  
high enough to take the established grade  
along the center line of the street, and in such  
manner as to give it a slope of one foot in thirty  
towards the gutter. The road-bed having  
been prepared along the whole of the block  
and having been accepted by the City  
Surveyor, it shall then be surfaced with  
cement gravel to the depth of eight

inches, to be placed in posts of redwood 4x4 inches  
spiked to posts of redwood 4x4 inches and  
three feet long in the ground on the outer  
edge of the curb, two feet below the bottom of the  
curb, and in addition thereto, there shall be  
a single post set in the same, to which both  
ends of the curb shall be spiked, there to be  
a stake of 3x4 redwood and two feet long  
set in the ground on the outer edge of the  
block, and having been accepted by the City
